

Dear Gymnastics Federation,

I hope this message finds you well. I am writing to you on behalf of Olympus Gymnastics Academy, a newly established gymnastics training center based in Kuwait. Our mission is to cultivate a nurturing and professional environment where young gymnasts can develop their skills and passion for the sport.

As we are in the initial stages of setting up our academy, we are actively seeking highly qualified and experienced artistic gymnastics coaches who can contribute to our vision of fostering excellence in gymnastics. Given your esteemed position and wide network in the international gymnastics community, we would greatly appreciate any recommendations or guidance you could provide in connecting us with potential coaches.

We are looking for individuals who possess a strong background in coaching at all levels from recreational to competitive, a deep understanding of the latest techniques and methodologies in gymnastics training, and a commitment to the holistic development of gymnasts. Additionally, we value coaches who are enthusiastic about working in a multicultural environment and who can contribute to the sport's growth in the Middle East region.

Any assistance or advice you could provide in this regard would be immensely valuable to us. We are eager to collaborate with professionals who share our dedication to excellence in gymnastics and who can help us achieve our goal of becoming a leading gymnastics academy in the region.

Thank you for considering our request. We look forward to the possibility of your support and guidance.

Best regards,

Sally
